

## Upstate BAC CULTIVATE PROGRAM

Upstate Biotech Accelerator: 841 E. Fayette St., Syracuse / RSVP [cnybac@upstate.edu](mailto:cnybac@upstate.edu)

### Commercialization Strategies – Moving Research from Lab to Market

September 22, 2016 – 3:00 – 4:30 p.m.

Miriam M. Gillett-Kunnath and Molly Zimmermann, NYS Science & Technology Law Center and Technology Commercialization Law Program, Syracuse University College of Law

*The SU NYS Science + Technology Law Center (NYS STLC) is an organization dedicated to providing legal research, education and information to help commercialize new technologies in NYS. With a grant from NYSTAR, the NYS STLC partners with the Technology Commercialization Law Program (TCLP) at the Syracuse University College of Law to offer IP, market, and regulatory research, to research centers, startups and companies considering the commercial development of new technology. Molly and Miriam will discuss these programs and how they can help promote the commercialization process.*

### Pairing Scientific Founders with Seasoned Business Personnel

October TBD – 3:00 – 4:30 p.m.

Dan DeGirolamo, Peloton, LLC, A Management Services Organization

*Dan will provide a series of case studies of recent client experiences to tie usable concepts and actions inventors can use in a diverse innovation ecosystem. Project experiences include: heat sink to prosperity; how fish farming lead to hedge funding; reducing inventor dilemma anxiety - no back office burden as you grow, and will discuss how business management challenges can be handled cost effectively and efficiently within a global market.*

### Upstate Medical University

#### Commercializing Biotech Innovation Conference

October 13-14, 2016

Featuring: ZDoggMD (Zubin Damania, M.D.) and Sean Ammirati

More Info: <http://www.cnybac.com>

To register: <https://www.upstatefoundation.org/CNYBiotech>

*Innovation ecosystem experts will present biotech collaborative presentations to catalyze innovation. Presenters and panelists will discuss healthcare innovation, community driven commerce startups, university student-based innovation, and genomics innovation. Panels include Bioscience Industry, Legal, Best Practice for University and Industry Collaboration, and Investment. Dr. Robert Corona, Chair of the Upstate Medical University collaborative conference, will also present next steps as well as announce a new innovation initiative at Upstate BAC.*

### MedTech Member Meet Up at Upstate BAC

Wednesday, November 9

Schedule/Presentations TBD

### Upstate Nursing Innovation and Entrepreneur Summit

November 30, 2016

*The Upstate Nursing Department of Professional Practice and Innovation in partnership with the Upstate Biotech Accelerator presents the first Nursing innovation and Entrepreneurship Summit, a one day continuing nursing education program to promote knowledge related to nursing innovation and resources available to promote the development of innovations that will improve the health of our communities and to promote recruitment and retention of an innovative nursing workforce. Program and registration available soon.*

Programs are open to the entrepreneur and research public at no cost unless otherwise noted. Parking is free in the lot behind the Biotech Accelerator. **Please RSVP** to [CNYBAC@upstate.edu](mailto:CNYBAC@upstate.edu).

Upstate BAC is a partner of Upstate Venture Connect.  
UVC is a 501c3 non-profit connecting entrepreneurs with mentors, investors, and startup supporters across Upstate New York.
